CROCY

Installation
directly on
grass

Product description

CROCY brings a sleek, modern touch to the classic balance beam, perfect for urban play areas. It challenges kids to master their balance and coordination.

This durable beam, set on sturdy steel legs, offers a flat and rounded surface for varying levels of balance practice. It is a safe, engaging play option for all ages, doubling as a bench for breaks during play. Kids can play in groups, assisting and encouraging each other.

With its simple, elegant design, CROCY is a functional and stylish addition to any playground, enhancing the landscape with its playful form and function.
