

Product description

SAULTY - TRIO is a modern twist on traditional Somersault Bars, catering to the dynamics of urban play. This triple-bar setup invites children to climb, swing, and master their acrobatics.

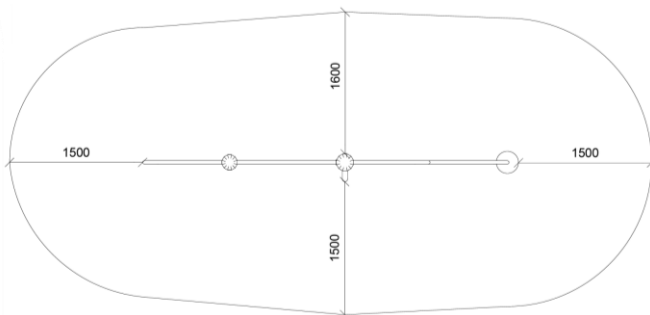

The Step Pad and Step Bar provide different ways to ascend and descend. The bend of one of the steel bars offers a challenge when crossing. The trio of bars encourages children to hang, swing, and support one another. It is a social space that promotes physical development strengthening coordination, balance, and spatial orientation.

The arrangement of bars allows for social play fostering cooperation. With its simple and elegant design, SAULTY - TRIO is an attractive, multifunctional piece for any modern playground in the city.
