SUN ARC 1

Product description

SUN ARC brings simple and elegant design to urban spaces. It combines the warmth of robinia wood with the sleekness of steel to offer an inviting challenge.

SUN ARC has various climb challenges and entry points, a narrow Vertical Climbing Net, Step Pads, Step Bar, and Balance Ropes. The curved steel arc and the two Somersault Bars encourage children to hang and swing. All activities enhance motor skills, strength, balance, and coordination.

Designed with an eye for elegance, SUN ARC stands out for its aesthetic appeal and the fun it provides. It is a social spot where children can hang out, gather to explore, and help each other reach new heights. Durable, elegant, and with its many play options, it is an excellent choice for a playground in the city.

Certificates

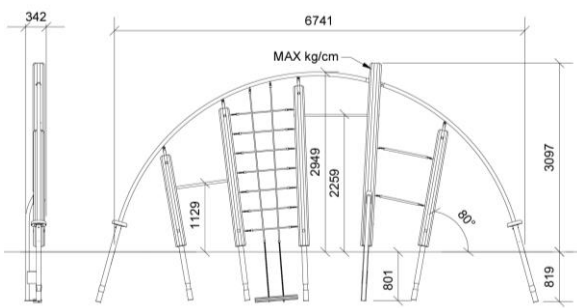

Key play functions

- Climb
